

Inclement Weather Policy 2024

Service Interruptions

In case of service interruptions (snow, ice, fog, etc.) please understand that we may be running behind or unable to run at all for the safety of our drivers and our passengers. We want to ensure safety and will take all precautions necessary to provide safe travel for all of our riders.

If there are any schedule changes due to bad weather, Piattran will contact riders who have a scheduled trip by phone. We will also make announcements about any schedule changes due to bad weather via our Facebook page and by the following stations:

WAND

WCIA

Mix 94.5

Our routes are **NOT** based on school closures.

The Piatt County Public Transportation Director will determine if operations will run as normal (i.e. Monday-Friday 6AM-5PM).

If a storm is coming and a midday/early evening closure is necessary, then the following actions will be taken:

Closing Early: If we have given you a ride in the morning and a storm is on its way, we will –

Decide at 10AM, 12PM or 2PM about closing early.

You will have 1 hour to get ready to get on the bus. We will make every effort to contact you about your new return time.

Then, starting at 11AM, 1PM or 3PM, we will start our early return route pickups.

Decisions on the pick-up order for return rides will be based on 1) rider vulnerability, 2) low service contract priority, and watching weather road conditions for each pickup/destination locations (i.e. if storm is only hitting Decatur, then they go first).

Work Riders:

Should be prepared to leave early (get permission from supervisor ahead of time); or

If leaving early is not an option, get a backup ride, and/or plan to shelter in place.
